

Generational Blessings Addendum

The Generational Blessings article was very personal, including my having to personally deal with a generational curse in our close family. Now I want to add what I am seeing in the year 2025.

Suddenly, AI is involved with everything online. AI is loaded with information by whoever created the particular AI program you are using. I avoid it as much as possible, but it is getting to the point where it is impossible to avoid it and get answers. It is profiling you and is not afraid to tell you so. It is presented to you that it will be able to better serve you by knowing everything about you. This is interesting to me because we are told twice in the book of Isaiah, in chapter 46:9-10 and 48:3, that YHWH has told us the end from the beginning. The end of everything can be seen in the beginning of the Torah. After Eve believes the lie (you certainly will not die). Satan (meaning adversary in Hebrew) noticed Eve added to the literal command by saying, we are not even to touch the fruit. Satan saw that she used her fleshly human logic to add to this literal command. He sees her weakness. Next, he says, “For Elohim knows that in the day you eat of it your eyes shall be opened, and you shall be like Elohim, knowing good and evil.” Her belief in the lie opened the door for her to go forward using her fleshly logic to justify breaking the literal command, as follows: And the woman saw that the tree was good for food, that it was pleasant to the eyes, and a tree desirable to make one wise, and she took of its fruit and ate. And she also gave to her husband with her, and he ate.

This may seem a lot, but look at what AI is telling you. If I gather all your likes, dislikes, and interests, I will be able to better serve you, or did AI actually mean to sell you? This is pretty easy to see at this level, but actually, it will get to a point where it will feed you information meant to create in you a new world view and reality. A worldview and reality that thinks you are better off getting all your knowledge from AI. Because you have believed the first lie, that you will be better off using your fleshly logic (which AI has created in you), instead of weighing every thought and action against what Torah says. Torah is the only truth that exists and has to be used to weigh all decisions by. Two witnesses are Psalms 119:142 and verse 151, as follows. Psalms 119:142 Your righteousness is righteousness forever, and Your Torah is truth. Psalms 119:151 You are near, O YHWH, and all Your commands are truth. If there are not two or three witnesses in Torah to prove a matter, stay away from that matter, and do not use fleshly (human) logic to justify going forward or delving deeper into it. Stay away from it, because without witnesses from Torah, there is no way to judge the spirit of that matter. Following esoteric understandings always divides Avinu’s people.

AI will be creating in a person a worldview and reality that will submit to the one world order, thinking they will be better by doing so.

We were listening to a Chinese lady who had fled China. She was telling how the government knew everything about everybody using the method above. This lady knew of a lady who did not believe the way the government needed her to, to be able to fulfill the government's purposes for her. The government created for her a group of friends on social media that did not exist. AI had gathered from her all her likes and dislikes and used this information to create a group of friends for her that she would like, that actually did not exist. Then this group of friends gently began to convince her of things that brought her to believe exactly as needed for her to fulfill what the government wanted her to do.

Those who are seeing what is happening already know it is becoming difficult, or even impossible, to know what is true anymore when questioning AI. Even when I am using an AI editing program, it is trying to program me. I refuse to submit to its suggestions, and now, when I get my monthly evaluation, it tells me I use more unique words than 99% of their users. They say I am more accurate than 98 % of their users. They are blowing smoke. My grammar is horrible, and I am definitely not a good writer.

Ultimately, it is so easy to get information now that, especially with young people who do not know there is any other way to get information, the world is falling into the trap. When everything is easy and given to you, and you do not have to work to accomplish things, you will not have that pride that comes from working hard and creating something that is good. The young people will eventually not be able to do anything without AI, making them totally dependent on it. Hard copy books will probably fade away soon.

Going back to the Generational Blessings article, the dominant neural pathway we are born with is dopamine, which is pleasure. Your dominant neural pathway is used to measure or define thoughts and actions. If a child is not taught that Torah rules over dopamine, they are in trouble. Right now, most children and young adults are programmed by social media and video games. Their worldview and realities are not true. There is only one truth, and it is Torah. Every thought is to be weighed against Torah to know whether or not to use the thought or reject it. How much worse is this going to be now that AI is forming their dominate neural pathway in their brain?

Elon Musk says his AI program is designed to help people to use their talents for good and not program them. Who knows?

We know the end from the beginning because satan has not changed at all. Since the fall in the garden, we have had two inclinations dwelling in the core of our being, which is our reasoning, referred to as our heart in the Hebrew scriptures. Our deliverance that will come soon is the removal of the evil inclination, or as Paul calls it in Romans chapter 7, the sin that dwells in the descendants of Adam. This will be on Shavuot some year in the future when the tare, or in some

scriptures called daniel, is removed from our reasoning. Read the article “Generational Curses” on zadokcalendar.org for details about this time.

I am now doing talks about prophecy and how they fit in the Zadok calendar found at Qumran. It is truly remarkable to see how it has accurately predicted many events and is the only calendar on earth that aligns with the prophecies of 1260 days in Revelation chapter 11, as well as the 1290-day and 1335-day prophecies in Daniel chapter 12. These prophecies can show the day and hour of Yahushua’s return, so we will have enough oil in our lamps to last until He comes.

There is a chart and explanation of this in article #6 called “The Two Witnesses and The Days of Daniel” on the zadokcalendar.org website.

Shalom

Conner
